

Number and Percent of Very Preterm (less than 32 weeks gestation) Live Singleton Births

Measures that have been suppressed to protect patient confidentiality have been identified using italic text with a shaded background.

Rates or measures with a relative standard error greater than 30% are unstable and have been identified using italic text with a shaded background to prevent misinterpretation.

Data Notes:

- This dataset was obtained from the National Environmental Public Health Tracking (EPHT) Portal at <http://ephtracking.cdc.gov/showHome.action>
- Data are classified by mother's residence at the time of birth which may or may not be the same as the mother's residence at the time of conception.
- Data presented on this portal may differ from data for the same measure on State Tracking Portals, State Health Department Web sites, and other source Web sites. Refer to the Missouri EPHT Data and Statistical Guide for more
- *Small cell counts of 0, 1, 2, 3, and 4 have been suppressed to protect patient confidentiality.
- Natality data provided by CDC's National Center for Health Statistics National Vital Statistics System.
- Data obtained from Multiple Cause Mortality files provided by CDC's National Center for Health Statistics.
